Premises: St John's Street, London
Timeframe: 3 weeks
Project: New Reception Area

SCOPE OF WORK

- Design
- Flooring
- Decoration
- Fully glazed partitioning

Very Mobile Group

Very Mobile Group (previously Eposs Limited) is an investment company with a successful track record of investing in early stage businesses, primarily those providing services in the mobile telecommunications industry.

Their strategy is to support strong management teams who are developing businesses in markets with high growth potential.

Their style is to take a light handed approach, relying on the integrity of the people we back rather than extensive accounting and administrative controls.

New Business Interiors were involved from the early stages of this project with Fiona Greene, PA to Managing Director.

New Business Interiors were asked to design and specify products to provide a professional and segregated reception area within an existing main office area.

Throughout the project New Business Interiors worked within a fully operational office area constantly altering their schedule to ensure minimal disruption.

It was requested that New Business Interiors undertake various additional works within the 3 weeks time frame; these included decoration and additional flooring.

The project was completed on time and has achieved the inviting and aesthetically pleasing reception the Very Mobile Group desired.

Client Comment:

We are very happy with the outcome of our office refurbishment. The workmen were friendly and efficient. The work they did is finished well and they, as well as the project manager Brian, were communicative all the way throughout the job.
