Commercial Refurbishment Specialists

Meeting your budget,
Exceeding your
expectations.

The Company

New Business Interiors UK Ltd is located in Southern England and is one of the fastest growing companies for commercial property and office refurbishments. With nearly 20 years experience in this specialist field we have needed to evolve our range of services to ensure we meet the demands of all our customers.

Whether we are providing a commercial re-fit, office redesign or a retail refurbishment, our approach is always considered, planned for and delivered on time and within budget.

Being able to provide managed solutions to our customers has in turn allowed them to grow their businesses with the minimal amount of disruption. Listening to what they want, providing advice and guidance on the best way forward as well as project managing the delivery are key to delivering a seamless transformation.

Our Services

Offering a complete range of services means we can be flexible in giving you a tailored service. If you know exactly what you need, then we would be delighted to discuss the specifics with you, and for this we are able to cover a number of areas:

- Suspended ceilings
- Furniture and seating
- Electrics and data
- Blinds
- Air conditioning
- Racking and storage
- CAD/Space Planning
- Partitioning
- Floor coverings
- Plumbing and heating
- Raised access floors
- Mezzanine floors
- Project Management
- Complete office refurbishment

We also recognise that it is sometimes not so easy to identify what you need, and you may appreciate some help or advice. This is where our planning and design expertise can really make a difference.

The starting point for us is identifying exactly what you require from the space you have and we believe it is a vital element to any successful project we undertake. It means that we spend most of our time with you at the outset ensuring that you know what to expect and we have the right level of understanding.

There is always a good reason why not to...

- I don't know where to begin, we need more space and the rest of the building needs a re-design
- I can't begin to think about improving our working environment, I haven't got the time
- I can't even consider closing the shop whilst we refit, I would lose too much business
- I can't possibly finance a refurbishment, but I can't afford not to

...but New Business Interiors gives you compelling reasons to do something

- Providing you with a complete new concept, design and colour set to create that extra space – integrating the solution with the rest of the building
- Giving you time to stay managing the company whilst we manage all aspects of the improvements
- Allowing you to continue running your business with minimal disruption, we work around what you need
- Offering you financial options through our comprehensive leasing solutions

If you need more reasons to act today – speak to us or visit our website
